

MASTER THE METHOD

And achieve your horsemanship goals
with Professional Clinician Jeff Davis

2025 INTERMEDIATE CLINIC

The Fundamentals level is the foundation of your journey through the Downunder Horsemanship Method. The Intermediate level is where we start to gain control over the horse's five body parts under saddle and build on the foundation you've achieved. We are also going to refine and expand on the groundwork you and your horse have learned in the Fundamentals level. Throughout the clinic, we will be covering the philosophy of the Method and teaching you the exercises to gain respect and control of your horse on the ground and under saddle and advance your partnership to the next level!
